Pre-work for PBCS Hands-On Training Lab

On behalf of all of us at Peloton, we are looking forward to the hands-on PBCS training session at Kscope. To ensure you get the most out of this session, we have a few preparation items outlined below:

Firefox	Download Firefox
	• http://www.mozilla.org/en-US/firefox/organizations/all/
	Install and configure Remote XUL Manager
	• http://docs.oracle.com/cloud/latest/pbcs_common/CSPGS/ch01s04s02s01.html
	Verify that Firefox Can Accept Oracle Planning and Budgeting Cloud Service Cookie
	• http://docs.oracle.com/cloud/latest/pbcs_common/CSPGS/ch01s04s02s02.html
	Verify Popups Setting
	• http://docs.oracle.com/cloud/latest/pbcs_common/CSPGS/ch01s04s02s03.html
Smart View	Download the latest Smart View Client (Supports PBCS and on-premises EPM)
	• http://www.oracle.com/technetwork/middleware/epm/downloads/smart-view-1112x-1939038.html
	Close all MS Office applications including Outlook
	Right click SmartView.exe and Run as Administrator
	• If SV is already installed the installer will handle the upgrade by uninstalling the older version installing the new version

We'll see you at the session!

Best,

Rob Caruso & Matt Forrester
